

QUANTUM® EDGE ELITE

Bolsa® Nested

Quantum® Edge Elite forms a frame around our Bolsa® Nested unit, providing a better edge than foam, reducing or eliminating that roll-off feeling, and delivering a consistent sleep surface.

- Proven 26% more durable than foam encasements.
- On adjustable bases, Quantum Edge bends an average of 24% easier than foam encasements, which means less wear and tear on moving parts.
- Ability to compress, fold, and roll-pack for your shippable mattress program.

The Bolsa® Nested coils that make up this unit offer a consistent sleep surface that minimizes partner disturbance and the feeling of roll-together.

- The dual-gauge, nested center zoning provides enhanced back support.

ComfortCore® coils feature heat-treated, stress-relieved wire that holds its shape and provides a durable, consistent sleep surface. The wire flexes and conforms to the individual contours of the body for superior comfort and reduced partner disturbance.

Innersprings sleep up to 28% cooler than foam.*
